Ridership Update

Transit ridership recovery continues to trending upward week-over-week from low of 50% in early January.

Weekly Recovery of Transit Ridership and Bridge Vehicle Volumes

A blue and green TransLink bus is shown with its doors open. Several passengers are boarding the bus. The bus has "TRANS LINK" and "nk.ca" visible on its side. The background shows a hazy outdoor setting with trees.

February boardings were up to **64.5%** of pre-COVID levels

Over **285,000** people are using transit daily

Relief funding helps us to maintain service and address immediate challenges.

We must keep the conversation going about long-term funding solutions.

Thank you
